From Farm to Family

- Oakland County Farmers Market is a mainstay for providing grower-direct fresh produce and flowers to county residents and visitors. The market hosts nearly 100 farmers, producers and makers throughout the year, representing 17 Michigan counties.
- A producer-direct market, participating vendors must grow or make the products that they bring for sale during the main season (May–October). During the off season (November–April), vendors may bring approved farm market-type items not produced by themselves.

More than just fruits and veggies

- Fresh fruits and vegetables are available throughout the year. Additionally, shoppers can find baked goods, fresh flowers, holiday décor, fresh meat, fragrant evergreens, artisan crafts and products like eggs, honey and maple syrup in season.
- Spend the day and enjoy a breakfast sandwich or barbecue lunch served by market vendors. There is always something happening at the market.
- Many market vendors are available seasonally based on their product offerings, but others attend year-round.
