

Oakland County Access to Transit PROGRAM

City of Clawson

Project Type:

Concept Design - Corridor Study

Location:

N Main Street between 14 Mile Road to N Phillips Avenue

Project Description:

Prepare a conceptual design to make safety improvements in Downtown Clawson on N Main St along SMART Bus Route 430. The proposed design may include reconfiguring the 5-lane roadway to 3-lanes, on-street parking, streetscaping, low-impact stormwater management, on-street parking, traffic calming, ADA compliant bus stop shelters, bike racks, high visibility crosswalks, and pedestrian activated signals.

This is a continuation of the traffic calming project that occurred on S Main St between 2008 and 2019. The ultimate goal is to reduce travel speeds as motorists enter downtown, improve pedestrian safety at the Le Pla and Fisher Ct intersection, and to add approximately 60 parking spots around Downtown Clawson.

Project Funding:

- Access to Transit Grant: \$20,000
- Local Match: \$5,000
- Total Project Budget: \$25,000

Anticipated Completion Date:

June 2026

Project Update:

- Conducted public engagement and an online survey in coordination with the Downtown Master Plan.
- Held stakeholder workshops with business owners, residents, and school district staff, supported by traffic count studies.
- Implemented a 30-day pilot road diet study on N. Main Street (May 11–June 15) to assess long-term impacts and collect additional traffic data.
