

# Oakland County Access to Transit PROGRAM

## City of Southfield

### Project Type:

Preliminary Engineering

### Project Location:

Nine Mile Road over M-10/M-39

### Project Description:

Conduct preliminary engineering and prepare final construction plans for a connection across the Northwestern Highway and Southfield Freeway Interchange as part of the Nine Line (urban trail on Nine Mile Road). The proposed pedestrian bridge will help to improve access along an existing top-ridership transit corridor, SMART Bus Route 710. In addition, the narrow 5-foot sidewalk is planned to be removed on the south side of Nine Mile Rd and replaced with a 10-foot wide sidepath.

### Project Funding:

- Access to Transit Grant: \$100,000
- Local Match: \$25,000
- Total Project Budget: \$125,000

### Anticipated Completion Date:

June 2026

### Project Update:

- Continued analysis of the Nine Mile Bridge over Northwestern Hwy (M-10) which is owned by MDOT. This is a complex process due to the style of the structure
- A detailed design package has been submitted to MDOT's Bureau of Bridges and Structures; currently responding to feedback from MDOT
- As coordination continues, the overall design and construction cost estimates will be updated accordingly
