RETURN TO AGENDA

OAKLAND COUNTY
PARKS AND RECREATION COMMISSION

2800 WATKINS LAKE ROAD, WATERFORD, MICHIGAN 48328
Telephone: (248) 858-0906

Yolanda Smith Charles
Vice Chair
Andrea LaFontaine
Secretary

REGULAR MEETING
Ebony Bagley, Chair

November 4, 2026

Kate Baker
Lola Banks
Ann Erickson Gault
Christine Long
Eric McPherson
Jim Nash
Shanell Weatherspoon

Chair Bagley called the meeting of the Oakland County Parks and Recreation Commission to order at 2:03 p.m. in the Parks Commission Room.

COMMISSION MEMBERS PRESENT:

Ebony Bagley, Yolanda Smith Charles, Andrea LaFontaine, Ann Erickson Gault, Kate Baker, Lola Banks, Christine Long, Eric McPherson, Jim Nash, Shanell Weatherspoon

COMMISSION MEMBERS ABSENT WITH NOTICE:

None

OTHERS PRESENT:

PARKS AND RECREATION	Chris Ward, Director
	Alan Jaros, Deputy Director
	Esther Jackson, Manager – Strategic Planning & Performance
	Tom Hughes, Interim Manager – Park & Enterprise Operations
	Simon Rivers, Chief – Strategic Partnerships & Initiatives
	Bill Singleton, Chief – Business Systems
	Ashlie Smith, Chief – Nature & Outdoor Education
	Desiree Stanfield, Chief – Communications & Marketing
	Kevin Syoen, Chief – Budget & Procurement
	Erin Watson, Chief – Health and Wellness Activation
	Zach Zuchowicz, DEI & Community Engagement Coordinator
	Jami Monte, Administrative Services Coordinator
	Aileen Matney, Project Advisor
	Liz Caltagirone, Data Analyst
	Brad Wethy, Assistant Parks Supervisor – Waterford Oaks
	Shannon Kenny, Administrative Specialist
PUBLIC	Jim Dunleavy, Former Manager – Park & Enterprise Operations
	Courtney Dunleavy
	Kaitlyn Kuctaga
	Dr. Ashelin Currie, We Love Lit!, Founder
	Rex Mathewson, Headwater Trails, Inc.

APPROVAL OF AGENDA

Nash moved to approve the agenda, as presented. Seconded by Baker.

Motion carried on a voice vote with Smith Charles and Long absent.

APPROVAL OF MINUTES

McPherson moved to approve the minutes of the October 7, 2026 regular meeting and the October 7, 2026 Closed Session, as presented. Seconded by Erickson Gault.

Motion carried on a voice vote with Smith Charles and Long absent.

PRESENTATIONS/RECOGNITIONS

A. Service Award: Jim Dunleavy

Chair Bagley recognized and thanked Jim Dunleavy for his work and contributions to Oakland County Parks and Recreation.

B. Winter Park Presentation

Ms. Watson provided a brief presentation of Winter Park at Bowers Farm-Discovery Oaks.

PUBLIC COMMENT

Dr. Ashelin Currie addressed the Commission regarding We Love Lit!.

COMMUNICATIONS/REPORTS

C. Monthly Financial Report

Mr. Syoen provided an overview of the FY2026 Monthly Financial Report.

REGULAR AGENDA ITEMS

1. 2027 Oakland County Parks and Recreation Commission Meeting Schedule

Long moved to approve the 2027 Oakland County Parks and Recreation Meeting Schedule. Seconded by Smith Charles.

Motion carried unanimously on a roll call vote.

2. Clinton River Oaks Construction License Agreement – Great Lakes Fisheries Commission

Baker moved to approve the Construction License Agreement between the County of Oakland and the Great Lakes Fisheries Commission. Seconded by Smith Charles.

Motion carried unanimously on a roll call vote.

3. 2023 Community Grant Program Agreement Extension – Village of Leonard, Polly Ann Trail Project

Long moved to approve the Oakland County Parks Community Park and Trail Capital Grant Program Agreement Amendment between the County of Oakland and the Village of Leonard, and forward to the Oakland County Board of Commissioners for approval. Seconded by Erickson Gault.

Motion carried unanimously on a roll call vote.

4. 2022 Community Grant Program Agreement Extension – City of South Lyon, Downtown South Lyon Park Project

Erickson Gault moved to approve the Oakland County Parks Community Park and Trail Capital Grant Program Agreement Amendment between the County of Oakland and the City of South Lyon, and forward to the Oakland County Board of Commissioners for approval. Seconded by Smith Charles.

Motion carried unanimously on a roll call vote.

5. **2026 Strategic Partnership Grant Amendment – City of Ferndale, Lennon Memorial Park Project**

Baker moved to approve the Park Development Agreement between the County of Oakland and the City of Ferndale for Lennon Park Improvements, and forward to the Oakland County Board of Commissioners for approval. Seconded by Weatherspoon.

Motion carried unanimously on a roll call vote.

6. **Red Oaks Back Lot Purchase**

Erickson Gault moved to approve the Purchase Agreement between the County of Oakland and Sharon L Oynskin in the amount of $40,000 for 0.33 acres located at 30526 Winthrop Drive, Madison Heights, MI 48071, and forward to the Oakland County Board of Commissioners for approval. Seconded by Nash.

Motion carried unanimously on a roll call vote.

7. **Springfield Oaks Residential Lease - Terry Foshia**
8. **Groveland Oaks Residential Lease - Robert Hatt**
9. **Waterford Oaks Residential Lease - Brad Lowe**
10. **Waterford Oaks Residential Lease - Chris Rowland**
11. **Highland Oaks Residential Lease - John Podina**

LaFontaine moved to approve the Residential Lease Agreements for items 7-11. Seconded by Banks.

Motion carried unanimously on a roll call vote.

12. **FY 2027 MDNR ORV Law Enforcement Grant Acceptance**

McPherson moved to accept the Michigan Department of Natural Resources (MDNR) FY 2027 Off-Road Vehicle (ORV) Law Enforcement Grant in the amount of $15,000, and forward to the Oakland County Board of Commissioners for approval. Seconded by Weatherspoon.

Motion carried unanimously on a roll call vote.

13. **Bloomfield Oaks-Johnson Nature Center Integrated Park Plan**

Commissioner Long exited the meeting at this time.

LaFontaine moved to:

- Approve submission of the Bloomfield Oaks–Johnson Nature Center Integrated Park Plan, encompassing the Park Action Plan, Capital Improvement Plan and Park Operations and Management Plan, to Bloomfield Hills Schools for review under the interlocal agreement; and
- Authorize the Director to make revisions needed to complete the review and approval process, including updates to supporting information, schedules and operating arrangements and changes responding to BHS comments, consistent with the plan's purpose and the interlocal agreement.

Seconded by Weatherspoon.

Motion carried on a roll call vote with Long absent.

14. Discovery Oaks-Bowers Farm Integrated Park Plan

Smith Charles moved to:

- Approve submission of the Discovery Oaks–Bowers Farm Integrated Park Plan, encompassing the Park Action Plan, Capital Improvement Plan and Park Operations and Management Plan, to Bloomfield Hills Schools for review under the interlocal agreement; and
- Authorize the Director to make revisions needed to complete the review and approval process, including updates to supporting information, schedules and operating arrangements and changes responding to BHS comments, consistent with the plan's purpose and the interlocal agreement.

Seconded by LaFontaine.

Motion carried on a roll call vote with Long absent.

UNFINISHED BUSINESS

None.

NEW & MISCELLANEOUS BUSINESS

15. Director's Report

Director Ward provided an overview of his report.

16. Executive Committee Update

Chair Bagley discussed the recent ribbon cutting ceremonies for park improvements at Catalpa Oaks and Red Oaks, and thanked the Parks team for their hard work and efforts to expand the department's presence and reach into communities that were previously underserved.

ANNOUNCEMENTS/ADJOURNMENT

At 3:13 p.m., there being no further business to come before the Commission, the meeting was adjourned to December 2, 2026, or to the Call of the Chair.

Andrea LaFontaine, OCPRC Secretary **Jami Monte, Recording Secretary**

NOTE: The foregoing minutes are subject to Commission approval.

Investment Income

FY 2026	
$2,258,371.42	The County strategy is to invest in longer term Agencies and Treasuries. Before the unprecedented rise in short term rates this strategy consistently outpreformed the short term investments (CDs and High Yeild Savings accounts).
FY 2027 YTD	
$161,459.38	

RETURN TO AGENDA

Oakland County Parks and Recreation Commission
Agenda Item Brief

Meeting date	December 2, 2026
Agenda item	1 - Enterprise Business Planning Policy
Item type	Approval
Lead staff	Chris Ward, Director
Recommended by	Policy Modernization Workgroup — Commissioners Baker and Banks

ACTION REQUESTED

Recommended motion: Move to adopt the Enterprise Business Planning Policy, as presented, superseding Commission Policy C-09-002, Development of Business Plans Policy.

AT A GLANCE

Commission Policy C-09-002 applied business planning broadly across parks and facilities. The proposed replacement focuses oversight on major recreation and learning facilities operating as distinct paid-service enterprises. A Commission-approved inventory will determine which facilities are covered. Business plans will show demand, net operating performance, public subsidy, capital and lifecycle obligations, and public value. The Commission will set strategic direction and subsidy/cost-recovery parameters, while the Director administers planning. Enterprise designation does not require profit or full cost recovery.

BACKGROUND AND CONTEXT

- Adopted in 2009 following the 2008 Strategic Plan, C-09-002 called for business plans for existing parks and facilities and feasibility planning for proposed facilities. It prescribed a consultant-developed planning approach and recurring management review. The replacement retains the underlying discipline but narrows its application.
- The proposed policy covers major recreation or learning facilities with separate program-level budget centers that regularly provide paid services or experiences and are designated by the Commission. An incidental fee, revenue account, or separately tracked activity is insufficient. Golf, aquatic, camping, ORV, and learning facilities are potential examples, not automatic designations.
- The Director will recommend an initial enterprise inventory for Commission approval. Plans will distinguish gross revenue from net operating performance, identify public subsidy and full lifecycle obligations, and be updated before specified major commitments, when performance materially departs from expectations, and at least every five years. Annual monitoring and a portfolio report are required. Corporation Counsel reviewed the proposal for legal conformance.

PUBLIC VALUE AND STRATEGIC ALIGNMENT

Enterprise designation is not a profitability test. Cost-recovery expectations must reflect the balance of benefits accruing to participating users and the broader community, together with the level of public subsidy the Commission considers appropriate. Business plans also address accessibility, affordability, and the facility's public purpose.

The purpose is to make long-term choices visible: continuation, reinvestment, redesign, alternative delivery, consolidation, or retirement. Planning may be integrated with park, financial, capital, and operating reviews. Business plans inform decisions but do not independently amend approved park frameworks or authorize projects, spending, contracts, pricing changes, or public commitments.

IMPACTS AND COMMITMENTS

Area	Key information
Financial	No appropriation, budget amendment, project, pricing change, subsidy level, or enterprise designation is approved by adopting this policy. Plans must distinguish gross earned revenue, net operating contribution or deficit, and public subsidy, and identify capital and lifecycle costs separately from annual operating results.
Operating and reporting	The Director establishes plan formats, materiality criteria, staff assignments, and annual monitoring. Each designated facility has a current business plan; updates occur before major decisions and at least every five years. An annual enterprise portfolio report is presented to the Commission.
Long-term	Plans assess utilization, market conditions, operating risk, asset condition, capital backlog, renewal and replacement, and full lifecycle obligations. They evaluate options to sustain, redesign, reinvest in, change delivery of, consolidate, or retire a facility.
Governance	The Commission approves the initial enterprise inventory and later additions or removals, receives plan executive summaries, and affirms public purpose, strategic direction, and subsidy/cost-recovery parameters. Specific actions still require applicable Commission or County Board approval.
Legal conformance	Corporation Counsel reviewed the proposed policy for legal conformance. Adoption supersedes C-09-002; it does not alter approval requirements for subsequent projects, appropriations, contracts, pricing, or other public commitments.

ALTERNATIVES CONSIDERED

- **Approve as recommended:** Replace C-09-002 with a targeted business-planning and reporting framework for designated enterprise facilities.
- **Modify the proposal:** Revise the designation criteria, planning obligations, or reporting schedule before adoption.
- **Defer or decline:** C-09-002 remains in effect, including its broad business-planning scope and existing administrative requirements.

NEXT STEPS

Upon adoption, staff will verify qualifying program-level budget centers and recurring paid offerings, then present a named initial enterprise inventory for Commission approval. The Director will establish proportionate planning and reporting procedures, identify existing plans that can be updated rather than recreated, and integrate this work with financial, capital, and Integrated Park Plan processes. Future proposals arising from business plans will return through the applicable approval process.

	Commission Policy	Date Adopted: [proposed] Date Revised: ____-____-____ C: 26-___ (Proposed)
	Enterprise Business Planning	

Authority: Public Act 261 of 1965, as amended; Oakland County Parks and Recreation Commission Bylaws; applicable Oakland County Board of Commissioners resolutions, County policies, and adopted budgets.

Related Policies: C26-001, Commission Reserved Authority and Director Delegation; C26-002, Integrated Park Plans and Park Zones; applicable pricing, contracting, and real-estate policies.

I. PURPOSE

The purpose of this policy is to ensure that major Oakland County Parks recreation and learning facilities with separate program-level budget centers that regularly provide paid services or experiences are managed through disciplined enterprise business planning.

Enterprise business planning shall provide the Commission with a transparent understanding of operating performance, public subsidy, capital and lifecycle obligations, market conditions, public value, and the available options for continuation, reinvestment, redesign, alternative delivery, consolidation, or retirement of enterprise facilities.

II. DEFINITIONS

Enterprise facility. A major recreation or learning facility that has a separate program-level budget center, regularly provides paid services or experiences, and has been designated by the Commission for enterprise business planning under Section III. An incidental fee, separately tracked activity, or revenue account does not, by itself, establish an enterprise.

Private and community benefit. Private benefit accrues principally to participating users or groups. Community benefit extends beyond direct participants to the broader public. Enterprise facilities may produce both.

Other public and merit services shall not be classified as enterprises solely because they charge fees and shall remain subject to applicable program, pricing, public-value, and performance requirements.

III. ENTERPRISE DESIGNATION

The Director shall recommend facilities for enterprise designation based on the criteria established by this policy. The Commission shall approve the initial inventory of enterprise facilities and any subsequent additions or removals. Changes in accounting structure alone shall not alter the Commission-approved inventory.

Designation as an enterprise does not establish a requirement that the operation generate a profit or recover all costs. Cost-recovery expectations shall reflect the relative private and community benefits produced and the public subsidy the Commission considers appropriate. Enterprise designation establishes that the operation's financial performance, subsidy, capital exposure, lifecycle obligations, and public value must be explicitly evaluated and managed.

IV. BUSINESS PLANNING REQUIREMENTS

The Director shall ensure that a current business plan is maintained for each Commission-designated enterprise facility. Each business plan shall address, as applicable:

- the public purpose and the private and community benefits produced;
- utilization, capacity, customer demand, and market position;
- gross earned revenue, operating costs, net operating contribution or deficit, and public subsidy;
- pricing, cost-recovery expectations, accessibility, and affordability;
- staffing, operating and contractual requirements, and material risks;
- asset condition, capital backlog, renewal, replacement, and full lifecycle obligations; and
- performance measures and options for continuation, reinvestment, redesign, alternative delivery, consolidation, or retirement.

Financial analysis shall distinguish gross revenue generation from net operating performance and shall identify capital and lifecycle obligations separately from annual operating results.

V. PLANNING AND REPORTING SCHEDULE

An enterprise business plan shall be prepared or updated before establishing or acquiring a new enterprise; undertaking major capital reinvestment; implementing material changes to its operating model; or entering into an operating agreement creating material financial or operational commitments.

A business plan shall also be updated when actual performance materially departs from approved expectations, and at least once every five years.

The Director shall establish administrative criteria for determining when business plans require preparation or updating, including consideration of financial impact, operational changes, risk, and long-term obligations.

The Director shall establish annual monitoring requirements and present an annual enterprise portfolio report to the Commission.

VI. DIRECTOR AUTHORITY

The Director shall oversee and administer enterprise business planning consistent with Commission policy, approved Integrated Park Plans, adopted budgets, and other applicable authority.

The Director may establish planning formats, analytical methods, performance measures, materiality thresholds, staff assignments, and administrative procedures necessary to implement this policy.

The Director may incorporate enterprise business planning into Integrated Park Plans, financial planning, capital planning, operating reviews, or other management systems as appropriate.

VII. COMMISSION REVIEW

The Commission shall receive an executive summary of each enterprise business plan and the annual enterprise portfolio report. The Commission shall establish or affirm the public purpose and strategic direction of each designated enterprise facility, including public subsidy and cost-recovery policy parameters within its reserved authority.

Enterprise business plans are management and decision-support tools. They do not independently amend an approved park framework or authorize projects, appropriations, contracts, pricing changes, capital commitments, public commitments, or other actions requiring Commission or County Board of Commissioners approval.

Any recommendation arising from an enterprise business plan that requires Commission or County Board authority shall be presented through the applicable approval process.

VIII. EFFECTIVE DATE

This policy takes effect upon Commission adoption and supersedes Commission Policy C-09-002, Development of Business Plans Policy.

OAKLAND COUNTY PARKS	Commission Policy	Date Adopted: 04-08-09	Dated Revised: 04-08-09	C-09-002 Page 1 of 2
		Development of Business Plans Policy		

I. PURPOSE: The purpose of developing business plans for destination facilities and core programs centers on developing a business approach and philosophy to managing these facilities and programs based on a key strategy outlined in the Oakland County Parks and Recreation Commission's Strategic Plan adopted in August, 2008. The goal is to maximize revenues, and provide efficiency to these facilities and programs through effective pricing, cost containment and staffing of these resources. Staff within the organization, along with outside consulting support, will develop these business plans over the next two years. The Oakland County Parks and Recreation Commission will review and adopt the Executive Summaries of these business plans for staff implementation. The results of the business plans efforts will be reviewed and updated annually by OCPRC staff.

Repeal

II. PROCEDURE:

A. The Executive Officer will establish which business plans will be developed over the course of each year. Business Plans will be done for all current parks and facilities but also for any new proposed park or facility to determine its feasibility. Staff will follow the business template developed by PROS Consulting and will use the appropriate methodology:
   1. For tracking direct and indirect costs
   2. Reviewing demographics and potential users
   3. Focus on existing programs to support the destination facility the makeup of the core program area
   4. Evaluate marketing efforts to attract new users and retain existing users
   5. Focus on appropriate pricing options as outlined in the pricing policy of the Commission
   6. Evaluate existing partnerships and level of equity from Oakland County and its partner's perspective and incorporate measureable outcomes to be tracked and managed through the changes recommended in the business plan.

III. STANDARDS:

A. Staff will follow agreed to performance measures that focus on the following:
   1. Revenues to expense outcomes desired
   2. Staffing levels and use based on approved budget levels
   3. Customer retention and satisfaction levels achieved
   4. Capacity management of each core program area and destination facility

5. Earned income gained to off-set operational costs
6. Staff performance levels met through effective scheduling
7. Marketing efforts and point-of-sale data collected and managed on each customer
8. Partnership equity levels met

IV. EVALUATION:

A. The Business and Organizational Development Section will work with staff on the development of the business plan and in tracking of the performance measures established in the business plan. Staff will review with the Business and Organizational Development Section staff their approaches to make business related changes to achieve the recommendations and cost containment efforts outlined in their respective business plan. The Administrative Management Team will review monthly with staff on how their efforts to manage the sites and core programs are working against expected outcomes.

Repeal

RETURN TO AGENDA

Oakland County Parks and Recreation Commission
Agenda Item Brief

Meeting date	December 2, 2026
Agenda item	2 - Lifecycle Obligations and Public Value Policy
Item type	Approval
Lead staff	Chris Ward, Director
Recommended by	Policy Modernization Workgroup - Commissioners Baker and Banks

ACTION REQUESTED

Recommended motion: Move to adopt the Lifecycle Obligations and Public Value Policy, as presented.

AT A GLANCE

Major investments and service commitments can create operating, renewal, staffing, and stewardship obligations that continue long after initial approval. This new policy requires consequential Parks Commission decisions to be informed by material lifecycle obligations, anticipated public benefits, organizational capacity, and reasonable alternatives. The information will be included in existing decision materials, at a level of detail proportionate to the decision. The policy does not require exhaustive accounting, a separate approval process, or selection of the lowest-cost option.

BACKGROUND AND CONTEXT

- The initial cost of a facility, land acquisition, partnership, program, or ecological restoration does not show what OCP must spend or sustain over time. Annual operating results also may not reveal major future renewal, replacement, monitoring, treatment, or staff-capacity commitments. The policy makes those obligations visible before significant decisions.
- The policy applies to Commission actions involving material new or continuing commitments: major capital renewal or replacement; significant changes to enterprises, learning or stewardship services; land transactions and partnerships; and natural-resource work creating continuing treatment or monitoring. Routine maintenance, minor purchases, and ordinary program administration do not require a separate evaluation.
- In workgroup discussions, Commissioners Baker and Banks sought clarity about when an evaluation is needed, what the Commission receives, and how unnecessary analysis will be avoided. The proposed policy uses materiality and decision sufficiency, relies on existing planning and budget processes, and delegates methods to the Director. Corporation Counsel reviewed the proposed policy for legal conformance.

PUBLIC VALUE AND STRATEGIC ALIGNMENT

Fiscal stewardship must be considered alongside recreation, equitable access, geographic reach, learning, health, ecological function, resilience, and community outcomes. Knowing the full cost of an activity does not mean recovering it entirely through fees. The Commission can judge whether the expected public value warrants the recurring commitments, subsidy, and competing use of public resources.

Related components must be evaluated as a functional whole rather than treated as independent services merely because they can be accounted for separately. Operating results and future cash needs remain distinct but visible together. Reasonable alternatives and organizational capacity inform continuation, reinvestment, redesign, or discontinuation; prior expenditures alone do not justify more spending. This is a cross-cutting decision standard, complementary to enterprise business planning and other specialized policies.

IMPACTS AND COMMITMENTS

Area	Key information
Financial	No appropriation, budget amendment, capital project, contract, or other financial commitment is approved by adopting this policy. For material proposals, existing decision materials will identify reasonably foreseeable initial, operating, staffing, repair, renewal, replacement, and continuing treatment obligations. Operating results and future cash needs remain distinguishable.
Operating	The Director establishes practical screening, materiality, estimation, and documentation methods, integrated with existing plans, budgets, asset management, and stewardship processes. Routine matters are excluded from a separate evaluation; additional precision is not required when it would not improve the decision.
Long-term	The Commission will see significant future stewardship requirements, demands on organizational capacity, principal assumptions and uncertainties, and reasonable alternatives before making consequential commitments. A proposal is not presumed justified by past spending or its initial capital cost.
Governance	Evaluations are included in existing Commission decision materials for matters requiring Commission action. The policy establishes an information standard, not a new Commission approval pathway. Separate Commission and County Board approvals continue to apply wherever required.
Legal conformance	Corporation Counsel reviewed the proposed policy for legal conformance. It does not supersede applicable law, County policies, Park Rules, approved park frameworks, binding obligations, or reserved authorities, and it independently authorizes no action.

ALTERNATIVES CONSIDERED

- **Approve as recommended:** Adopt a common, proportionate decision standard for material lifecycle obligations and anticipated public value.
- **Modify the proposal:** Adjust the scope, materiality standard, or information required for consequential Commission decisions.
- **Defer or decline:** Continue under separate existing planning and approval requirements without an overarching lifecycle and public-value standard.

NEXT STEPS

Upon adoption, the Director will establish proportionate screening and evaluation practices using existing information and staff systems. Significant items brought to the Commission will identify the principal lifecycle obligations, public benefits, reasonable alternatives, and material assumptions or uncertainties within existing agenda materials. Any resulting project, expenditure, agreement, or other action will continue through its applicable authorization process.

	Commission Policy	Date Adopted: [proposed] Date Revised: ____-____-____ C: 26-___ (Proposed)
	Lifecycle Obligations and Public Value	

Authority: Public Act 261 of 1965, as amended; Oakland County Parks and Recreation Commission Bylaws; applicable Oakland County Board of Commissioners resolutions, County policies, and adopted budgets.

Related Policies: C26-001, Commission Reserved Authority and Director Delegation; C26-002, Integrated Park Plans and Park Zones; and other applicable Commission policies.

I. PURPOSE

The purpose of this policy is to establish Oakland County Parks and Recreation Commission ("Commission") expectations for considering material long-term obligations and public value when making consequential decisions about Oakland County Parks assets, natural resources, facilities, enterprises, services, programs, and partnerships.

II. POLICY STATEMENT

The Commission recognizes that decisions to acquire, develop, operate, maintain, restore, improve, or provide assets and services can create recurring costs, major future expenditures, and continuing stewardship responsibilities beyond their initial authorization.

Significant decisions shall be informed by a reasonable understanding of these obligations, the anticipated public benefits, available resources, and institutional capacity. A lifecycle and public-value evaluation informs judgment; it does not presume continuation, replacement, full cost recovery, discontinuation, or selection of the lowest-cost alternative.

III. SCOPE AND APPLICABILITY

A proportionate lifecycle and public-value evaluation shall support matters requiring Commission action that involve material new or continuing commitments, including:

- major capital investments, substantial facility rehabilitation or replacement, and significant asset adaptation or disposition;
- major establishment, expansion, reinvestment, restructuring, or discontinuation of recreational business enterprises, outdoor learning and stewardship services, or other public services;
- significant land acquisitions, partnerships, agreements, or shared responsibilities creating continuing obligations; and
- natural-resource restoration or management programs establishing substantial ongoing treatment, monitoring, or stewardship commitments.

A separate lifecycle and public-value evaluation is not required for routine maintenance, minor asset purchases, ordinary program administration, or other matters unlikely to materially affect a decision. The Director shall apply lifecycle considerations within existing planning, budgeting, asset management, and natural-resource stewardship processes as appropriate.

IV. LIFECYCLE AND PUBLIC VALUE PRINCIPLES

A. Functional Consolidation. Related revenues, expenditures, assets, activities, and obligations shall be considered together when they support a common service, enterprise, or ecological outcome. Components may be examined separately when useful for management, but shall not be treated as independent services solely because they can be accounted for separately.

B. Full Lifecycle Consideration. Evaluations shall identify reasonably foreseeable material initial costs; recurring operations, maintenance, staffing, and management obligations, including demands on existing capacity; major repair, renewal, replacement, and continuing treatment requirements; and other significant future commitments. Operating results and long-term cash needs shall remain distinguishable without obscuring their combined burden.

C. Public Value. Financial performance shall be considered alongside relevant public benefits, including recreation, access, geographic reach, learning, health, ecological function, resilience, and community outcomes. Identifying the full cost of a service does not require full recovery through user fees or selection of the least expensive alternative.

D. Materiality and Decision Sufficiency. The level of analysis shall be proportionate to financial significance, duration, complexity, risk, and long-term consequences. An item is material when a reasonable change in its estimate could affect affordability, comparison of alternatives, future budgets, staffing capacity, or stewardship commitments. Evaluations may use standardized assumptions, comparable experience, professional judgment, and reasonable cost ranges, applied consistently across alternatives. Principal obligations, material assumptions, and uncertainties shall be disclosed. Additional precision or incidental cost detail is not required when unlikely to materially improve the decision.

E. Alternatives and Responsible Stewardship. Material continuation, reinvestment, or expansion decisions shall consider reasonable alternatives, organizational capacity, and competing uses of public resources. Past expenditures alone shall not justify future investment. Applicable legal, contractual, safety, environmental, and other binding obligations remain controlling.

V. DIRECTOR AUTHORITY AND ADMINISTRATION

The Director shall oversee and administer this policy within applicable law, approved budgets, County requirements and policies, Commission policies, and delegated authority.

The Director may establish screening criteria, materiality thresholds for analytical effort, standardized estimation methods, documentation and review practices, and staff responsibilities. These practices shall support consistent, evidence-based evaluations and be incorporated into existing planning, budgeting, enterprise management, natural-resource stewardship, and program processes.

Administration shall make practical use of existing information and systems, avoid unnecessary duplication, and stop further analysis when additional detail would not materially improve a decision. Administrative screening and routine management shall not create a separate Commission approval process. The Director may recommend changes to existing commitments based on the resulting evaluations.

VI. COMMISSION REVIEW

For applicable matters requiring Commission action, the Director shall include in the existing decision materials a proportionate evaluation of principal lifecycle obligations, anticipated public value, relevant alternatives, and significant assumptions or uncertainties. Such materials shall provide information sufficient for a sound decision, not exhaustive activity-level accounting. Matters requiring Commission or Oakland County Board of Commissioners approval shall follow existing authorization processes.

Nothing in this policy independently authorizes any project, expenditure, appropriation, contract, land-use restriction, disposition, public commitment, or other action requiring separate approval.

VII. RELATIONSHIP TO OTHER REQUIREMENTS

This policy establishes general stewardship expectations. Specialized policies governing pricing, enterprise business planning, capital investment, natural resources, partnerships, and other matters may impose additional requirements. This policy does not supersede applicable law, County requirements and policies, Park Rules, approved park frameworks, or reserved authorities.

VIII. EFFECTIVE DATE

This policy takes effect upon Commission adoption.

RETURN TO AGENDA

Oakland County Parks and Recreation Commission
Agenda Item Brief

Meeting date	December 2, 2026
Agenda item	3 - External Funding and Grant Authorization Policy
Item type	Approval
Lead staff	Chris Ward, Director
Recommended by	Policy Modernization Workgroup - Commissioners Baker and Banks

ACTION REQUESTED

Recommended motion: Move to adopt Parks Commission Policy C26-010, External Funding and Grant Authorization, as presented.

AT A GLANCE

This proposed new policy clarifies who may authorize Oakland County Parks to submit external funding applications, awards for County acceptance review, and grant amendments. Routine applications may proceed without a prior Parks Commission vote; binding or reserved commitments still require Commission authorization. Limited Director authority applies to qualifying small awards and amendments. OCP authorization permits submission into the County process - it does not accept a grant, execute an agreement, or authorize spending.

BACKGROUND AND CONTEXT

The Policy Modernization Workgroup refined an earlier approach that would have placed routine grant steps before the Parks Commission. The revised framework enables staff to respond to funding deadlines while reserving consequential or binding commitments for Commission review. Corporation Counsel reviewed the proposed policy for legal conformance.

Grant opportunities can carry matching and reimbursement requirements, cash-flow exposure, staffing and compliance duties, maintenance needs, and long-term stewardship obligations. The availability of outside funding alone does not justify a project or continuing commitment; proposals must advance Commission-approved public purposes and priorities.

This policy defines OCP authorization within the Oakland County grant review and approval process. Director or Commission authorization allows the matter to enter that process, but is not final County acceptance, agreement execution, budget approval, contract approval, or authority for a staffing or land-use commitment.

PUBLIC VALUE AND STRATEGIC ALIGNMENT

Funding decisions must reasonably weigh anticipated public value against match requirements, cash flow, financial risk, demands on existing staffing, operating and maintenance responsibilities, compliance conditions, and future stewardship. The extent of review should match the significance of the potential commitment.

The Director will establish administrative routing, documentation, compliance, reporting, and closeout procedures and keep the Parks Commission reasonably informed of material applications, awards, and amendments. The authorization boundaries below are intended to avoid unnecessary Commission action while preserving oversight and all required County approvals.

HOW THE AUTHORIZATION RULES WORK

Funding step	Director may authorize submission	Parks Commission must authorize
Grant applications	Director or designee may authorize routine preparation and submission through County review.	Prior Commission authorization if the application itself creates a binding commitment or requires a reserved Commission action.
Award acceptance submissions	Director may authorize County review for awards of $10,000 or less, provided no separate resolution or interlocal agreement is required, authorized staffing is unchanged, and no reserved action is involved.	Commission authorization before County acceptance review for awards over $10,000, failure of any Director condition, or another reserved Commission matter.
Grant amendment submissions	Director may authorize County review when the proposed change is less than 15% of the current award OR $10,000 or less, with no reserved action.	Commission authorization when the change meets neither numerical test or otherwise requires a reserved Commission action.

Thresholds and safeguards: For amendments, the percentage and dollar tests apply to the proposed change in the current award, not the total grant. A separate resolution, interlocal agreement, staffing change, or reserved matter can independently trigger Commission review of an award regardless of its value.

IMPACTS AND COMMITMENTS

Area	Key information
Financial and lifecycle	No grant, appropriation, budget amendment, project, contract, or expenditure is approved by adoption of this policy. Individual funding proposals must address material match, cash-flow, operating, maintenance, compliance, and continuing stewardship obligations.
Operating	The Director administers routine application submissions and qualifying award or amendment referrals to County review, with documented checks for thresholds and reserved matters. Staff procedures address County routing, compliance, reporting, and grant closeout.
Legal and governance	Corporation Counsel reviewed the proposed policy for legal conformance. Parks Commission authorization is distinct from final County grant review and approval, including Board of Commissioners action where required. All other legal, fiscal, grantor, budget, contracting, and staffing approvals remain controlling.

ALTERNATIVES CONSIDERED

- **Approve as recommended:** Adopt C26-010 as the internal authorization framework for applications, acceptance submissions, and grant amendments.
- **Modify the proposal:** Adjust the dollar or percentage thresholds, exceptions, or Commission reporting provisions.
- **Defer or decline:** Existing County requirements and Commission reserved authorities remain, without the proposed OCP delegation and submission framework.

NEXT STEPS

Upon adoption, staff will implement grant routing and documentation procedures that distinguish applications, award acceptance submissions, and amendments; screen proposed commitments against applicable thresholds and reserved authorities; and obtain Commission authorization before County review when required. The Director will keep the Commission informed of material grant activity. Any final acceptance, contract, expenditure, staffing change, or other commitment will proceed through its separate required approvals.

	Parks Commission Policy	Date Adopted: [proposed] Date Revised: ____-____-____ C: 26-010 (Proposed)
	External Funding and Grant Authorization	

Authority: Public Act 261 of 1965, as amended; Oakland County Parks and Recreation Commission Bylaws; applicable County resolutions, policies, and adopted budgets.

Related Policies: C26-001, Commission Reserved Authority and Director Delegation; C23-003, Expenditure and Contract Approval Policy; and other applicable Parks Commission policies.

I. PURPOSE

This policy establishes authority for the development, submission, and consideration of external funding applications, grant acceptances, and amendments for Oakland County Parks. It supports timely pursuit of funding while preserving the authority of the Oakland County Parks and Recreation Commission ("Commission") over material commitments and complying with the Oakland County grant review and approval process.

II. POLICY STATEMENT

External funding shall advance Commission-approved public purposes and priorities. Availability of funding alone shall not justify new or continuing institutional obligations.

Authorization by the Commission or Director under this policy means authorization to submit the matter into the applicable County grant review and approval process. This authorization does not constitute final County approval, grant acceptance, execution of an agreement, or approval of any other commitment requiring separate authorization.

III. GRANT APPLICATIONS

The Director or designee may authorize preparation and submission of external funding applications through the applicable County grant review and approval process without routine prior Commission approval.

Prior Commission authorization is required when an application itself would make a binding commitment or otherwise involve an action reserved to the Commission. Preliminary County review may proceed before such authorization when permitted by County procedures and policies.

IV. GRANT ACCEPTANCE SUBMISSIONS

The Director may administratively authorize submission of an award acceptance or agreement for County review when the award is $10,000 or less, provided no separate resolution or interlocal agreement is required and acceptance would not change authorized staffing levels.

Commission authorization is required before submission for County acceptance review when the award exceeds $10,000, any of the conditions for Director authorization are not satisfied, or the award acceptance or agreement otherwise involves a matter reserved to the Commission.

V. GRANT AMENDMENT SUBMISSIONS

The Director may administratively authorize submission of a grant amendment for County review when the change is less than 15 percent of the current award amount or is $10,000 or less, provided the amendment does not require an action reserved to the Commission.

Commission authorization is required before submission for County review when an amendment meets neither numerical threshold or otherwise requires Commission action. The percentage and dollar tests apply to the proposed change in the current award, not the total award amount.

VI. EVALUATION AND OVERSIGHT

Grant decisions shall reasonably consider anticipated public value, funding conditions, matching and cash-flow requirements, and material staffing, operating, maintenance, compliance, and long-term stewardship obligations. The level of review shall be proportionate to the significance of the decision.

The Director shall keep the Commission reasonably informed of material applications, awards, and amendments and shall establish administrative procedures for staff responsibilities, County routing, documentation, compliance, reporting, and closeout.

VII. OTHER AUTHORITY AND EFFECTIVE DATE

All matters remain subject to applicable law, Commission policies and reserved authority, County grant review and approval requirements, including any required Oakland County Board of Commissioners approval, grantor conditions, and other required approvals. No authorization under this policy independently permits an expenditure, contract, staffing change, land-use action, or other commitment requiring separate approval.

This policy takes effect upon Commission adoption.

RETURN TO AGENDA

Oakland County Parks and Recreation Commission
Agenda Item Brief

Meeting date	December 2, 2026
Agenda item	4 - Parks Ambassador Passbooks Policy
Item type	Action
Lead staff	Chris Ward, Director
Recommended by	Policy Modernization Workgroup - Commissioners Baker and Banks

ACTION REQUESTED

Recommended motion: Move to adopt the Parks Ambassador Passbooks Policy as a full replacement of Commission Policy C09-007, Parks Access Permit Policy, superseding all prior versions and amendments of that policy, effective upon adoption.

AT A GLANCE

The proposed replacement modernizes the limited passbook system established after the 2009 elimination of earlier courtesy and lifetime access privileges. It establishes Public Leadership, Employee, and Community Ambassador programs to support firsthand experience, public awareness, visitor feedback, and relationships with nonprofit organizations, community groups, and public agencies. Each passbook contains four single-use passes; each covers 100% of a specified OCP charge for one Director-designated eligible experience. The policy removes obsolete vehicle-permit provisions, allows seasonal offerings and special events, and strengthens distribution and redemption controls.

BACKGROUND AND CONTEXT

- The Commission adopted C09-007 on June 3, 2009 after rescinding prior parks-pass practices, including the Gold Card-era lifetime privileges. The change replaced broad recurring benefits with limited passbooks. The current proposal preserves that governing distinction rather than reviving lifetime access.
- The existing Parks Access Permit Policy, revised in 2022, still references OCP vehicle permits and a joint OCP/Metroparks permit that are no longer provided. It fixes eligible offerings to named facilities and embeds detailed operating restrictions, making the policy difficult to apply to newer offerings such as Winter Park and the Fall Festival.
- Commissioners Baker and Banks reviewed the modernization approach through the Policy Modernization Workgroup. The replacement retains four annual passbooks for participating commissioners and updates employee sharing, community distributions, operating conditions, and reporting. Corporation Counsel reviewed the draft on November 24 and recommended removing fundraising references due to a governmental-immunity concern. The reconciled draft restores the existing mission-based partner approach and does not authorize pass sales. Confirmation of the reconciled language with Counsel remains outstanding.

PUBLIC VALUE AND STRATEGIC ALIGNMENT

Limited complimentary access supports informed oversight, employee familiarity with OCP experiences, visitor feedback, and relationships with nonprofit organizations, community groups, and public agencies that support the OCP mission. Each pass invites voluntary post-experience feedback; the annual Commission report will summarize use, feedback where practicable, operating effects, and community distributions.

The Director may designate eligible facilities, activities, seasonal offerings, and special events and publish reservation, capacity, blackout, safety, and redemption conditions. Winter Park and the Fall Festival may be designated without changing Commission policy, but coverage is limited to the identified OCP charge and service unit, not unrestricted admission or a waiver of other charges.

IMPACTS AND COMMITMENTS

Area	Key information
Passbook benefit and value	Four single-use passes per book; each pass provides a 100% discount on the designated OCP charge for one eligible experience or service unit. Staff will track the published value of redeemed experiences, capacity effects, and possible displacement of paying customers. No appropriation or budget amendment is requested.
Public Leadership	County Commissioners and Parks Commissioners may opt in at the beginning of a term and receive four passbooks annually during that term unless they opt out. Dual service does not produce duplicate allocations. The Director may approve additional books for a documented OCP public purpose.
Employees and community	Each OCP employee receives three passbooks annually, including during onboarding without duplicate allocation; passes may be shared without employee attendance. The Director or Deputy Director may approve up to two books per nonprofit organization, community group, or public agency annually, with documented OCP public purpose and additional allocations subject to Director approval and annual limits.
Operations and controls	The Director designates eligible experiences and published redemption conditions. Unique identifiers prevent duplicate redemption; distribution, additional approvals, and redeemed value are recorded. Sharing is allowed as specified; the policy does not authorize sale of passes or passbooks. One annual Commission report is required.
Governance and legal review	The policy fully replaces C09-007 and removes obsolete vehicle and joint Metroparks pass provisions. Corporation Counsel reviewed the initial draft November 24 and recommended removing fundraising language; confirmation of the reconciled language remains outstanding. County financial controls, employee-benefit requirements, applicable law, and park rules remain controlling.

ALTERNATIVES CONSIDERED

- **Approve as recommended:** Replace C09-007 with the three-program Ambassador framework, updated eligibility and controls, following confirmation of the reconciled legal language.
- **Modify the proposal:** Adjust annual allocations, eligible purposes, additional-passbook approvals, or administrative and reporting controls.
- **Defer or decline:** The existing C09-007 Parks Access Permit Policy remains in effect, including outdated facility-specific provisions and obsolete vehicle-permit language.

NEXT STEPS

Before the December 2 meeting, seek Corporation Counsel's confirmation of the reconciled community-use and pass-sale language and incorporate any legally required changes. Upon adoption, the Director will publish eligible experiences and redemption conditions, establish distribution and tracking procedures, organize leadership opt-in and employee issuance, set annual community distribution limits, and implement the voluntary survey invitation and annual Commission report.

	Commission Policy	Date Adopted: 06-03-2009 Date Revised: Proposed C: 09-007
	Parks Ambassador Passbooks Policy	

I. PURPOSE

Ambassadors help Oakland County Parks (OCP) build awareness of its facilities, programs, and experiences by experiencing them firsthand and sharing those opportunities with others. Their participation and feedback help OCP understand the visitor experience, improve services, and reach people who may be unfamiliar with its offerings. Passbook distributions may also strengthen relationships with nonprofit organizations, community groups, and public agencies that support the OCP mission. This policy advances those purposes through Public Leadership, Employee, and Community Ambassadors.

II. PASSBOOK DEFINITION AND BENEFIT

Passbook. A booklet containing four (4) single-use passes.

Pass benefit. Each pass entitles its holder to a 100% discount on the OCP charge for one eligible paid experience designated by the Director. The covered charge and applicable admission or service unit shall be identified in published redemption conditions. Each pass may be redeemed once.

III. PUBLIC LEADERSHIP AMBASSADORS

Members of the Oakland County Board of Commissioners and Oakland County Parks and Recreation Commission (Commission) may elect to participate at the beginning of their respective terms. Participating officials shall receive four (4) passbooks per calendar year. Participation shall renew automatically each year during that term unless the official opts out. An individual serving on both the Board of Commissioners and the Commission receives only one allocation.

Officials may use passes personally or share them with others. They may request additional passbooks from the Director, who may approve them for a documented OCP public purpose.

IV. EMPLOYEE AMBASSADORS

All OCP employees shall receive three (3) passbooks per calendar year. Distribution shall occur annually and during onboarding, with no more than three (3) passbooks per employee per calendar year.

Employees may use passes personally or share them with others. Employee attendance is not required. Each participant or eligible service unit requires its own pass under the published redemption conditions.

V. COMMUNITY AMBASSADORS

The Director or Deputy Director may approve up to two (2) passbooks per recipient organization or agency per calendar year for nonprofit organizations, community groups, and public agencies that OCP works with to fulfill its mission. Multiple requests from the same recipient count toward this standard allocation.

Each distribution shall support a documented OCP public purpose. The Director may approve additional passbooks when that purpose justifies the additional allocation. The Director shall establish annual community distribution limits considering quantity, value, and capacity; additional allocations remain subject to those limits.

Recipients may use or distribute passes for the approved purpose and shall be asked to acknowledge OCP in promotional materials, as applicable.

VI. ADMINISTRATION

Eligible experiences and conditions. The Director shall designate eligible facilities, programs, activities, seasonal offerings, and special events and publish redemption conditions before use. Conditions may address reservations, capacity, blackout periods, and other operating needs, considering safety, service quality, cost, and potential displacement of paid use. Coverage is limited to the OCP charges expressly identified.

Transfer and use. Passes may be shared as provided in Sections III-V, subject to the documented public purpose and published redemption conditions. This policy does not authorize the sale of passes or passbooks.

User feedback. Each pass shall include instructions inviting the actual user, or a responsible adult on behalf of the participating party, to complete an online post-experience survey. Participation is encouraged and voluntary and is not a condition of redemption.

Issuance and controls. The Director shall establish eligibility criteria and procedures for issuance, expiration, redemption, and recordkeeping. Routine distribution may be assigned to designated staff following the approvals required above. Procedures shall preserve the allocations and approval authority established by this policy.

Records and annual report. Records shall distinguish the three Ambassador programs, use unique identifiers to prevent duplicate redemption, and identify distributions, approvals, additional allocations, and the published value of redeemed experiences. The Director shall provide one annual Commission report summarizing use, survey participation and feedback where practicable, operating effects, additional allocations, and recommended changes. For Community Ambassador distributions, it shall identify each recipient, the documented OCP public purpose for the distribution, and the primary contact. Individual redemption reports are not required.

Compliance. Administration of this policy shall conform to applicable federal, state, and County laws, policies, and requirements, including employee-benefit treatment and financial controls. All users remain subject to OCP park rules and safety requirements.

VII. EFFECTIVE DATE AND REPLACEMENT

This policy takes effect upon Commission adoption and replaces Commission Policy C09-007, Parks Access Permit Policy, in its entirety, superseding all prior versions and amendments of that policy.

OAKLAND COUNTY PARKS	Commission Policy	Date Approved: 06-03-09	Dated Revised: 06/29/2022	C: 09-007 Page 1 of 5
		Parks Access Permit Policy		

I. PURPOSE: The purpose of this policy is to provide Oakland County Commissioners, Oakland County Parks and Recreation Commissioners and Parks and Recreation employees and other partners with access to County owned and operated parks, pursuant to duties outlined in the State of Michigan Public Act 261 of 1965:

> Public Act 261 authorizes the creation and prescribes "the powers and duties of county and regional parks and recreation commissions; and prescribes the powers and duties of county boards of commissioners with respect to county and regional parks and recreation commissions."
>
> Pursuant to Act 261 the Oakland County Parks and Recreation Commission (OCPRC) is an agency of the County.
>
> OCPRC may plan, develop, preserve, administer, maintain and operate park and recreational plans and facilities and construct, reconstruct, alter and renew buildings and other structures.
>
> The Act ensures that OCPRC has the custody, control and management of all real and personal property acquired by the County for public parks, preserves, parkways, playgrounds, recreation centers, wildlife areas, lands reserved for flood conditions for impounding runoff water and other County conservation or recreation purposes.

Oakland County Commissioners, Oakland County Parks and Recreation Commissioners, Parks and Recreation employees and other partners serve as parks ambassadors to inform the public about the Oakland County Parks and to increase attendance to the Oakland County Parks. This policy allows these individuals to become familiar with Oakland County Park's property and facilities in order to gain the information and experiences required for them to effectively market and promote Parks facilities, provide input regarding strategic planning and make decisions regarding the management of Oakland County Parks.

Repeal

II. PROCEDURE: The OCPRC mission is to provide all residents quality recreation experiences that encourage healthy lifestyles, support economic prosperity, promote the protection of natural resources and enhance the quality of life throughout Oakland County. The procedure outlined below is designed to provide a mechanism by which Commissioners and parks employees can assist with helping to achieve this mission statement.

Definitions:

- "*Annual Vehicle Permit*" – provides access to parks for day use.
- "*Parks Access Permit*" – Each Parks Access Permit book includes four (4) single-use access permits which provide single-use access to five (5) golf courses, two (2) campgrounds, two (2) waterparks and Holly Oaks ORV park operated by Oakland County Parks and Recreation Commission.
- "*Commissioners*" – refers to Oakland County Board of Commissioners and Oakland

County Parks and Recreation Commissioners. In situations where an Oakland County Board of Commissioners member is also serving as a Parks Commissioner, access will be granted for the individual, not for both positions.

- "*Business Reason*" - The business reason should adhere to Internal Revenue Service guidelines as follows:
    - The main purpose is directly related to active County or Park-related operations; the individual utilizing the Parks Access Permit is engaged in Park business during the course of using the facility; there is more than a general expectation of getting business benefit from use of the Parks facility; OR
    - The main purpose of the use of the Parks Access Permit is associated with Parks related operations and either the use thereof directly precedes or follows a substantial business discussion.
- "*Other partners*" – refers to individuals and groups that the Oakland County Parks and Recreation Commission works with to fulfill its mission. This may include representatives from local cities, Villages and Townships, other recreation and conservation authorities, private business sponsors, non-profit organizations or any individual or group that is not a Commissioner or employee but supports its mission.

A. Commissioners

1. Annual Vehicle Permits will be issued in January for each calendar year.
    a. Board of Commissioners will receive an Oakland County Resident vehicle permit. The Annual Vehicle Permit provides access to Oakland County day use parks.
    b. Parks Commissioners will receive an annual joint access permit which gives access to Oakland County day use parks as well as thirteen (13) Huron-Clinton Metroparks.
    c. A copy of the Rules and Regulations for Oakland County Parks will be included with the Annual Vehicle Permit.
    d. Commissioners are to adhere the Annual Vehicle Permit issued to them to the lower corner of the driver's side of the windshield of their personal vehicle to gain access to the parks. The Annual Vehicle Permit is not valid unless it is adhered to the windshield of a motor vehicle.
2. Parks Access Permits
    a. Staff will provide Commissioners a "Request for Initial Distribution of Parks Access Permits" form to request Parks Access Permits for facility access each January for the current calendar year.
    b. Commissioners will be asked to check 'yes' or 'no' to indicate whether or not they would like to receive Parks Access Permits and return the completed form to Administrative Services staff.
    c. Commissioners may request up to four (4) Parks Access Permit books for use at facilities where a fee is required.

Repeal

d. Parks Access Permits are to be used by Commissioners to promote, showcase, and evaluate park facilities.

e. Commissioners and their guests will be asked to provide information including their name and an email address each time a Parks Access Permit is used.

f. Commissioners may request additional Parks Access Permits by contacting the Parks and Recreation Director, or his designee in writing by completing the "Request for Additional Distribution of Parks Access Permits" form. A business reason must be provided at the time of the request.

3. Evaluation and Feedback

a. Staff will send an email request as follow up to the use of each Parks Access Permit.

b. Commissioners and their guests will be asked to complete an online survey evaluation to provide feedback that will be used to make decisions regarding the management of the Parks. The request for this feedback will follow their experience at the facility where the Parks Access Permit was used.

c. The data provided on the evaluation will be analyzed by staff and used to make corrections and improvements as needed to ensure quality experiences for guests.

d. Commissioners and/or their guests will receive a request for feedback each time a Parks Access Permit is used.

B. Parks and Recreation employees

1. All current Oakland County Parks and Recreation employees will receive an Oakland County Parks vehicle permit annually.

a. The Annual Vehicle Permit provides access to Oakland County day use parks.

b. Parks and Recreation employees are expected to follow all Park Rules and Regulations at all times when on park property.

2. Parks Access Permits

a. Employees may be issued up to three (3) Parks Access Permit books for use at facilities where a fee is required.

b. Employees will receive an email with a survey request as follow up to the use of each Parks Access Permit.

c. The feedback provided on the survey will be sent to the park Supervisor of the facility to make improvements as needed to ensure quality experiences for guests.

3. To eliminate or reduce disruption to park guests, the use of Park Access Permits by employees shall be subject to the following limitations:

Repeal

a. Golf:
   i. Walk in only
   ii. Weekdays – Anytime
   iii. Weekends and Holidays -After 2:00 p.m. (12:00 p.m.-2:00 p.m. with supervisor approval)
   iv. For individual play only and do not apply to leagues, outings, etc.
   v. Employees may bring 3 guests (use 4 visits at a time) additional guests must pay for golf and cart at their qualifying rate.

b. Campgrounds
   i. Valid Sun-Thurs, excluding Holidays and Special Events
   ii. Visit applies to campsite fee only, no cabins, yurts or group areas
   iii. Employee may make reservations in advance in person or by phone
   iv. Employee may apply visits up to 2 campsites per night (use up to 10 visits at a time)
   v. All equipment must be provided by the employee

c. Waterpark entry
   i. employees may bring guests (use 4 visits at a time), other guests must pay at their qualifying rate

d. ORV park entry for vehicle
   i. does not have to be the employee's vehicle, employee may bring 1 guest (use 2 visits at a time)

4. Implementation and Administration
   a. The Director of Parks and Recreation is authorized to enact policies and procedures that supplement this Policy to administer the Employee Access Permit program to conform with federal, state and county regulatory requirements.

C. Other partners
   1. The Director of Parks and Recreation is authorized to implement the policies and procedures listed above to other partners as necessary to support the mission of the OCPRC which includes access to public parks, preserves, trails and recreation programming.
      a. Annual Vehicle Permits may be issued on an ad hoc basis.

Repeal

i. The Annual Vehicle Permit is not valid unless it is adhered to the windshield of a motor vehicle.
ii. Visitors and guests are expected to follow all Park Rules and Regulations at all times when on park property.

b. Parks Access Permits may be requested by contacting the Parks and Recreation Director, or his designee
i. A business reason must be provided at the time of the request.
ii. Distribution of Parks Access Permits to other partners will be tracked by in the same format as Commissioners, by using the "Request for Additional Distribution of Parks Access Permits" form.

Repeal

RETURN TO AGENDA

Oakland County Parks and Recreation Commission Agenda Item Memo

Agenda #: 5

Department: Design, Engineering, & Compliance

From: Zachary Crane, Supervisor – Design, Engineering, & Compliance

Subject: Stormwater Management Operations and Maintenance Agreement with Lyon Township

RECOMMENDED MOTION

Move to approve the Stormwater Management Operations and Maintenance Agreement between the County of Oakland and Township of Lyon, and forward to the Oakland County Board of Commissioners for approval.

INTRODUCTION AND HISTORY

The Lyon Township engineering department requires a stormwater management operations and maintenance agreement for the previously approved Lyon Oaks Day Use, Dog Park, and Recreation Area Parking and Stormwater Improvement project. The purpose of the agreement is for the 'Owner' (Oakland County Parks & Recreation Commission - OCPRC) to ensure they maintain and repair all storm drainage pretreatment facilities on the property. If the Owner fails to comply with these responsibilities, the township will provide written notification to address issues and if not completed by Owner in a timely fashion, Lyon Township would be able take corrective action and invoice property Owner. This agreement has been reviewed and approved by Corporation Counsel.

ATTACHMENTS

1. Lyon Township Stormwater Management Operations and Maintenance Agreement
2. Lyon Township Stormwater Management Operations and Maintenance Agreement Exhibits A-C

Stormwater Management Operations and Maintenance Agreement

This Agreement is made on _____ by and between the Township of Lyon, (hereinafter "Township") whose address is 58000 Grand River Avenue, New Hudson, MI 48165 and the County of Oakland, by and through its statutory agent the Oakland County Parks and Recreation Commission, whose address is 2800 Watkins Lake Road, Waterford, MI 48328, (hereinafter "Owner") pursuant to Code and approvals given to ensure the future operation and maintenance of the Stormwater System. The Owner and Township agrees as follows:

Article I. The Subject Property.

1.1 Owner owns the property located at and commonly known as Lyon Oaks County Park, 52221 Pontiac Trail, Wixom, MI 48393 (hereinafter the "Property"). The legal description of the Property is shown on ***Exhibit A***.

Article II. The Stormwater System.

2.1 Owner, in accordance with Lyon Township Design and Construction Standards and State Municipal Separate Storm Sewer System permit requirements, agrees to construct, install, and permanently maintain a Stormwater System on the Property in accordance with approved plans and conditions. The Stormwater System is depicted on ***Exhibit B.***

2.2 After construction has been verified and accepted by the Township for the Stormwater System, Owner shall file with the Township the "as-built" documents showing the design and construction details and shall reference this Agreement.

2.3 The Stormwater System will be governed by the terms and conditions in this Agreement.

Article III. The Stormwater O&M Plan.

3.1 Owner shall be solely responsible for the installation, maintenance, and repair of the Stormwater System, drainage easements, and associated landscaping identified in ***Exhibit B*** in accordance with the Stormwater Management Operations and Maintenance Plan (the "Stormwater O&M Plan") set forth in ***Exhibit C***.

3.2 The Stormwater O&M Plan is subject to approval by the Township.

3.3 Owner agrees that the Stormwater O&M Plan is intended to and will serve the Property in perpetuity.

3.4. Owner, at its expense, shall secure from any affected owners of land, all easements, and releases of right-of-way necessary for implementation of the Stormwater O&M Plan and shall record them with the Oakland County Register of Deeds and provide a recorded copy to the Township. These easements and releases of rights-of-way shall not be altered, amended, vacated, released, or abandoned without prior written approval of the Township.

3.5. No alterations or changes to the Stormwater O&M Plan shall be permitted unless they are deemed to comply with this Agreement and are approved in writing by the Township.

3.6 Owner shall retain the services of a qualified inspector as described in ***Exhibit C*** (Maintenance Requirement to operate and ensure the maintenance of the Stormwater O&M Plan. The Township defines a "qualified inspector" as a Stormwater Operator certified by the State of Michigan or a Michigan-licensed Professional Engineer.

3.7 Owner shall annually, by December 30th, provide to the Township records (logs, invoices, reports, data, etc.) of inspections, maintenance, and repair of the Stormwater System in compliance with the Stormwater O&M Plan.

Article IV. <u>Access and Enforcement</u>.

4.1 The Township is authorized to access the property as necessary to conduct inspections of the Stormwater System, confirm conformance with the Stormwater O&M Plan, and inspect drainage easements to ascertain compliance with the intent of this Agreement.

Upon written notification by the Township of required maintenance or repairs, Owner shall complete the specified maintenance or repairs within a reasonable time frame as determined by the Township. Owner shall be liable for the failure to undertake any maintenance or repairs so that the public health, safety, and welfare shall not be endangered nor any road or other improvement damaged.

4.2 If Owner does not keep the Stormwater System in reasonable order and condition, or complete maintenance activities in accordance with the Stormwater O&M Plan, or the reporting required in 3.7 above, the Township is authorized, but not required, to perform the specified inspections, maintenance or repairs in order to preserve the intended functions of the Stormwater System and prevent the Stormwater System from becoming a threat to public health, safety, general welfare or the environment. The Township is further authorized, but not required, to shut down construction, installation, or operation of the Stormwater System if there is a soil erosion violation occurring, about to occur, or which has occurred. In addition, the Township may refuse to issue any further building permits until such time as all soil erosions violations have been corrected.

In the event there is a failure to timely perform the maintenance and repairs required by this Agreement, the Township shall serve written notice upon Owner setting forth such deficiency and a demand that the deficiency be cured within a reasonable period following the notice (with the exception of a deficiency reasonably determined by the Township to constitute an impending

and immediate danger to the health safety, and welfare of the public). If the deficiency set forth in the notice is not cured within said period, the Township may enter upon the Property to cure the deficiency, and assess the cost of such cure, including any related administrative expense and attorney fees, to Owner. The Township will not take action to enter upon the Property and cure the deficiency if, within the period of time stated in the notice, Owner has taken appropriate steps to cure the deficiency, and thereafter diligently pursues completion of the required work. If the Township enters upon the Property to cure the deficiency, the Township may add to the actual cost to cure a sum equal to twenty-five percent (25%) of the costs incurred by the Township in completing the same to cover the costs of servicing this Agreement. The Township may require the payments of said monies prior to the commencement of work. In any event, all costs shall be due and payable upon receipt by Owner of a written invoice for the same from the Township with appropriate supporting documentation. Any costs not paid within thirty (30) days following the delivery of the invoice shall bear interest at the rate of one and one-half percent (1 1/2 %) per month until paid. In the discretion of the Township, such costs and expenses may be collected by suit initiated against Owner, and in such event, Owner shall pay all court costs and reasonable attorney fees incurred by the Township in connection with such suit if the Township prevails in collecting funds.

The rights and remedies accorded the Township pursuant to this Agreement, the ordinances of the Township and/or applicable law are cumulative and may be exercised in any order, without precluding the right of the Township to exercise any other right or remedy at a later time.

4.3 In the case of an emergency, as determined by the Township, no notice shall be required prior to the Township performing emergency maintenance or repairs. The Township may levy the costs and expenses of such inspections, maintenance, or repairs against the Owner.

4.4 Owner hereby conveys to the Township an easement over, on and in the property described in ***Exhibit A*** for the purpose of access to the Stormwater System for the inspection, maintenance, and repair thereof, at any time or should Owner fail to properly inspect, maintain, and repair the Stormwater System.

Article V. <u>Term and Covenants</u>.

5.1 This Agreement shall bind all current and future owners of the property. Owner agrees in the event that the Property is sold, transferred, or leased to provide information to the new owner, operator, or lessee regarding proper inspection, maintenance, and repair of the Stormwater System and Stormwater O&M Plan. The information shall accompany the first deed transfer and include ***Exhibits B and C*** and this Agreement. The transfer of this information shall also be required with any subsequent sale, transfer, or lease of the Property.

5.2 Owner agrees that the rights, obligations, and responsibilities hereunder shall commence upon execution of the Agreement.

Article VI. <u>Recording</u>.

6.1 Owner shall record this Agreement with the Oakland County Register of Deeds to provide notice to subsequent owners of the requirements of this Agreement.

Article VII. Claims and Authority.

7.1 The representatives of Owner whose signature(s) appear below hereby represent and warrant that they have the authority and capacity to sign this agreement and bind the respective parties hereto.

IN WITNESS WHEREOF, Owner has executed this agreement on the day and year first above written.

Explanation of Exhibits

Exhibit A – Legal Description: Provide a legal description and reduced copy map to identify the land parcel(s) affected by this Agreement. This exhibit must be customized for each site. It must include a reference to a Subdivision Plat, Certified Survey number, or Condominium Plat, and a map to illustrate the affected parcel(s).

Exhibit B – Stormwater System Description and Map: Provide a written description and location map of the Stormwater System. This exhibit must be customized for each site. Map scale must be sufficiently large enough to show necessary detail.

Exhibit C – Stormwater O&M Plan: This exhibit explains the basic function of the stormwater management operation and maintenance plan, schedule, and budget providing the minimum specific maintenance activities and frequencies for each practice. The minimum elements of this exhibit include a description of the drainage area and the installed Stormwater System, a description of the specific maintenance activities which should include the following in addition to specific maintenance actions:

- Employee training and duties,
- Routine service requirements,
- Operating, inspection, and maintenance schedules, and
- Detailed construction drawings showing all critical components and their elevations.

The plan must include maintenance tasks and schedules. Refer to the Low Impact Development Manual for Michigan for maintenance task checklists for permanent BMPs and create a table of applicable maintenance tasks and schedules.

RETURN TO AGENDA

Oakland County Parks and Recreation Commission Agenda Item Memo

Agenda #: 6

Department: Administration

From: Dr. Esther Jackson, Manager Strategic Planning & Performance

Subject: 2027 Fees & Charges

RECOMMENDED MOTION

Move to approve the Oakland County Parks and Recreation 2027 Fees and Charges, effective January 1, 2027.

INTRODUCTION AND HISTORY

Oakland County Parks & Recreation conducts an annual review of park, recreation, facility rental, educational, and program fees to ensure rates remain aligned with operational costs, market conditions, customer demand, and organizational goals.

The proposed 2027 Fees and Charges Schedule reflects staff evaluation of current fee structures, operating expenses, competitive pricing, service delivery requirements, and affordability considerations.

Staff has reviewed existing fees and recommends adjustments where appropriate to support sustainable operations while continuing to provide accessible recreational opportunities to Oakland County residents and visitors.

Business Justification

The proposed fees support Oakland County Park's ability to:

- Maintain quality facilities and visitor experiences.
- Deliver recreation, educational, and outdoor learning programs.
- Recover a reasonable portion of operating costs.
- Support asset preservation and ongoing maintenance.
- Advance Oakland County Parks' strategic priorities and Mission 26 objectives.
- Balance affordability with fiscal responsibility.

Fiscal Impact

The proposed fee schedule is expected to support operating revenues and assist in offsetting increased costs associated with labor, materials, utilities, maintenance, programming, and service delivery.

Specific revenue impacts will vary based on attendance, participation levels, and market demand.

RETURN TO AGENDA

Memo

To: Parks and Recreation Commission
From: Chris Ward
Date: December 2, 2026
Re: Director's Report

WINTER PARK RETURNS TO DISCOVERY OAKS WITH EXPANDED EXPERIENCES

Winter Park opens December 18, 2026, and continues through February 28, 2027 at **Discovery Oaks - Bowers Farm**. This is the first winter season under Oakland County Parks' expanded operating responsibilities at the farm through the long-term partnership with **Bloomfield Hills Schools**. The Thursday-through-Sunday schedule includes additional dates during the school holiday break, giving families more opportunities to visit during the heart of winter.

The experience brings back glow tubing and adds outdoor ice skating and the new Bunny Slide for younger guests. Farm animals, warming fires and tents, seasonal food and beverages, and the Farm Store round out the visit. General admission remains free; guests pay only for glow tubing and, if needed, skate rentals. The free-admission structure preserves broad public access while supporting the specialized activities that require equipment and staffing.

This season is also an early test of how OCP can preserve a well-loved farm tradition while integrating it into a larger public park system. Staff will use participation, operating experience and visitor feedback from the season to inform future programming, access and service decisions at the site.

MAKING IT WORK TOGETHER STAFF TOWN HALL

Making It Work Together is moving from explanation to dialogue. Its purpose is to help employees understand where OCP is going, how the organization is changing and how their work contributes to making the changes function as one system. The governing message is straightforward: OCP has done a great deal of changing; the next responsibility is to make the changes work together.

Employees will first have time to view a five-part explainer series covering how OCP arrived at this point, the Mission 26 direction, why organizational readiness matters, how the organization is changing and what the changes mean for staff. OCP will then convene an all-staff town hall to discuss the strategic direction, organizational changes underway and questions that remain unresolved.

The town hall is intended to produce a visible record of employee questions, direct answers where they are available, and named follow-up responsibility where additional work is required. It will also distinguish what has been decided, what remains in development and what is genuinely open for staff input. That distinction matters: meaningful participation requires room for employee evidence and judgment, but it also requires clarity about who holds final decision authority.

UPCOMING STAFF DATE

The **Employee Appreciation Holiday Party** is scheduled for Thursday, December 17, from noon to 3 p.m. at **White Lake Oaks Golf Course**. Parks Commissioners are invited to join OCP employees for the event.

OUTDOOR LEARNING and ENVIRONMENTAL STEWARDSHIP HIGHLIGHTS:

Badge-a-palooza was held in November at Bloomfield Oaks with over 100 scouts participating in fishing and hiking

Turkeys from Bowers visited 500 students including the OCP TreeSchool students at Johnson Nature Center

Getting ready to open Summer Camp and TreeSchool registration Jan 7 2027.

Dirty Work Field Day – An all-day Landscaper Training in partnership with MSU Extension's Caitlin Splawski. 28 participants learned about invasive ornamental species and native alternatives and participated in invasive management at Lyon Oaks

Farmington STEAM Academy used plants they received from a recent Native Plant Pop-up tabling event that OCP hosted at Tollgate's Pumpkinfest and shared their photos and an update.

HabitatHero Dashboard Data Results from 2026 – from Spring Native Plant Event and other native plant events throughout the year. The HabitatHero program was a new addition to OCP Native Plant programs this year to gain an understanding of their impact. HabitatHero Survey metrics of importance from the 126 participants: 24.6% indicated that their plants will contribute to a new garden, 52.37% reported that they would not or were unsure/maybe have purchased their plant if they did not participate in the program, at least 64 people indicated they did not participate previously. Returning participants indicated 30/53 increased desire to protect pollinators, 26/53 Improved connection with nature, 28/53 Purchased more native plants, 46/53 good plant health from previous plantings (3/53 reported some did not survive planting). Reported new pollinator habitat 12-452 sq miles (depending on species).

2026 Accomplishments

A YEAR OF PUBLIC INVESTMENT, EXPANDED REACH, AND SERVICE | THROUGH NOVEMBER 24, 2026

In its 60th anniversary year, **Oakland County Parks** opened and renewed major public destinations, expanded outdoor learning and community access, and established a strategic direction for sustaining a larger countywide system.

PARKS AND PUBLIC SPACES DELIVERED

- **Oak Park Woods at Shepherd Park:** Opened June 22 after a $6.2 million investment, establishing OCP's first park presence in Oak Park.
- **Pontiac Oaks:** Celebrated its major renovation July 12, with accessible trails, nature play, disc golf improvements, and enhanced lake access.
- **Catalpa Oaks:** Partially reopened October 17 with accessible play, paths, gathering areas, and green infrastructure; athletic fields remain scheduled for 2027.
- **Red Oaks Park:** Opened October 30 after a $7.1 million transformation, featuring the **McGillivray Play Garden** and expanded intergenerational recreation.

A BROADER COUNTYWIDE REACH

- **Turtle Woods, Troy:** Completed acquisition of approximately 70 acres with state trust-fund support; park improvements and public opening remain planned for 2027.
- **Discovery Oaks / Bowers School Farm** and **Bloomfield Oaks / E.L. Johnson Nature Center:** Advanced the long-term **Bloomfield Hills Schools** operating partnership, broadening agricultural and nature learning.
- **Pine Lake Park:** Approved a $1.5 million affiliate investment supporting a future public park operated by **West Bloomfield Parks** on school-owned land; construction is not a completed 2026 outcome.
- **Neighborhoods and trails:** Supported the completed **Aaron Perry Park / Oakland Park** improvements in Pontiac with the Water Resources Commissioner and partners; helped fund Rochester's reopened **Clinton River Trail** restoration.

LEARNING, EXPERIENCES, AND STEWARDSHIP

- Launched **Outdoor Discovery Camps** with MSU Extension; expanded early-childhood, homeschool, nature and hiking experiences; opened the **Springfield Oaks 3D archery course**.
- Delivered **Fireworks and Flannels**, the **Great Marshmallow Drop**, **Disability Dirt Day** and 60th-anniversary programming. OCP and the county CISMA received the **2026 Conservation Partner** recognition.

BUILDING THE FOUNDATION FOR LONG-TERM RESULTS

- On March 11, the Parks Commission unanimously adopted **Mission 26**, establishing a strategic direction for public access, recreation, learning, stewardship and public value.
- Advanced **FY2027 planning**, issued administrative budgetary controls, and developed longer-term financial and policy work. **OCP 2041** and additional policy reforms remain in development, not adopted final outcomes.

Still to deliver: Catalpa Oaks athletic fields, Turtle Woods public opening, other major park projects, and the continuing integration of new operating responsibilities. **Approved investments and planning milestones are not represented here as completed construction.**

Basis: OCP 2026 accomplishments inventory (Oct. 29); 2026 Delivery Record (Nov. 12); Nov. 23 accomplishments companion and project records. Selected highlights; not a final audited annual report.
