THE SEWER CONNECTION MUST BE INSPECTED. PLEASE CALL 248-858-1105 TO REQUEST AN INSPECTION.

24-HOUR NOTICE REQUIRED FOR INSPECTION

The following are bonding requirements of the Oakland County Water Resources Commissioners Office for County Sewer work including any and all extensions/relocations/connections:

1) $5000 surety bond on WRC form DC-443
2) Liability insurance naming WRC as additional insured

This permit does not relieve the applicant from obtaining any other required permits. No building sewer installation or portion thereof shall have an ex-filtration or infiltration rate exceeding 100 gallons per inch diameter per mile of pipe per 24-hour period. Only materials that are approved by the Oakland County Water Resources Commissioner may be used.

☐ I have read and understand the Sewer Service Connection Regulations on page two and agree to abide by them.

☐ I understand that sewer bills will be mailed to the service address unless otherwise requested.

OAKLAND COUNTY WRC SEWER CONNECTION APPLICATION

24 - HOUR NOTICE IS REQUIRED TO SCHEDULE INSPECTION

Call 248-858-1105 Monday - Friday
Calls must be received before 2 p.m. for next business day inspection

---

1. This permit is issued under the provisions of Part 41 of Act 451 of the Michigan Public Acts of 1994, as amended.

2. This permit does not relieve the applicant from obtaining any approvals or permits as may be required by a local municipality, road authority, utility company, private property owner or other governmental agency.

3. All lines, laterals, manholes, or other structures to be connected into the county system shall be free from silt and debris.

4. All work effecting county sewers must be done in accordance with the approved plans and specifications. Proposed work is to be performed in accordance with the Wastewater Disposal Standards and Regulations adopted by the Oakland County Board of Commissioners and the Oakland County Water Resources Commissioner (WRC) Standards. Should the applicant fail to notify the county prior to starting such work, the entire amount of the deposit may be forfeited. In such cases, re-excavation of any un-inspected work may be required at the expense of the applicant.

5. No ground water, storm water, construction water, downspout drainage, or weep tile drainage shall be allowed to enter any sanitary sewer installation.

6. Any industrial or commercial facility using chemical processing shall provide a sampling manhole or acceptable equivalent between the trunk sewer and the building lead.

7. All wastes discharged into county sewers shall meet the standards governing domestic and industrial wastes as specified in the Oakland County Wastewater Disposal Standards and Regulations.

8. In operating under this permit, it is strictly understood that the Water Resources Commissioner and the County of Oakland are held harmless from any damages arising out of such connection or excavation.

9. Flow in the county sewer shall be maintained at all times during construction.

10. Any right-of-way required for the construction of this project must be obtained prior to the beginning of construction.

11. The WRC is only responsible for the public sewer main. The sewer service line (service line from the sewer main to the house) are the customer's responsibility.

NOTE: This permit shall expire one year after the date of issuance unless construction starts prior to the expiration date. Any portion of the facilities constructed prior to the date of issuance of the EGLE and/or WRC permit is not authorized by this permit and is a violation of the act.
